Sy: Is the Bodin quote still in?

If not: am I ~~sing~~ the source of the  
tel cons (which are in U Thant)

and perhaps the ~~news~~ ult —

not the cables,  
as if: ~~interviews~~ had just become known

or, just available to the Post

(not from me)

102-880  
Z dies { and the Post (by) <sup>saw</sup> ~~that~~ the significance  
or their signif. was known to  
the intell analysts

which leaves unasked and unanswered, How  
come no one outside intell com has known  
of this for 23 years — including Exon makes  
who stayed in the govt? (McN, McG B, RFK...

[Because I was the only person who knew all 3 pieces:  
till I told Sy!]

Of course, I wanted this story out, preferably  
this Oct — by me: M.

I didn't know I faced choice of  
— having it out, by me and confirmed, but  
not by or about me

— not having it out in NYT/Post

The contrast between this (? hypothesized for me,  
"paranoid"?) version, and Sy's draft of last night,  
is just too painful. [Probably, Sy will put

last week!

If by ~~the~~ let Post feel me: explanation: Post doesn't see  
himself of having it on me, need for it, desirability ("Wf Elsbey again?  
— and he doesn't want to argue with his new employer, esp. to deal with  
Quinton, "Do you care him? Did you promise him? Are you his PR man?"  
ing angle back in, when I ask, tomorrow  
morning.

I went through this this morning, when I  
thought he ought insist on having in my  
negotiation by Harvard —

(as when I thought in Ash Post could be  
funious with me for being late coming off the  
mountain; like the "jack story" — I worked  
up a rage at ... her being walked on ahead,  
left me alone, in case I had got hurt ... I got thirsty...  
abandoned...)

(I anticipated his betrayal by Sy — having to  
terminate our friendship — couldn't trust him any more,  
being dependent on Sy — being used, treated  
contemptuously/inconsiderately

His final words, as cutting out reference to my reaction  
Turkish mirrors his defense (crying, feeling JFK  
had blown it): "you tell things to a journalist,  
then you're unhappy when he uses them."

I was thinking this morning — "Do I really  
have to watch my words now, on personal matters?  
"This is off the record..."

On Harvard: I said to him: "Sy, if I wrote a op ed piece  
and said, "To show how the story has been distorted  
and suppressed, Sy's piece was sent out in the NYT  
this and they found it, so he had to go..."  
"It's ant."

[If story had first been presented to me this way —  
by some else — I might have accepted it — to  
get it out ...

even though David had said,  
"This will sell a  
bunch to a Jewish  
NYT?"  
so then a reason David is giving him for \$75K; and this wife "hate him"

anger, rage, at D/E was so great, I had to  
ask myself why. The main reason that I know

[I didn't permit myself or to to explain myself -  
or ask myself to this challenge and rage -  
to any of my old friends, because

1) I wanted to give them the option of  
maintaining max distance from me.

2) not put pressure on them, at all, to support me.

3) not encourage them to support me - in ignorance

I wasn't done with rumors (NASSM-1, news)  
or resistance. (War wasn't ending!)
